### HEARING AGAIN COMMENCED

**ALBERT T. PATRICK CONTINUES EFFORT TO SECURE HIS LIBERTY**

**TO HEAR 30 WITNESSES**

**Fate of Accused Will be Decided This Time.**

(By Associated Press.)

New York, Feb. 17.—Before Recorder Goff in general sessions today the hearing of witnesses was begun in the action for a new trial for Albert T. Patrick, convicted and sentenced for the murder of William Marsh Rice, the aged Texas millionaire. More than thirty witnesses are to be heard. Among them are some of the best known physicians and pathologists in the country, who declare that Rice's death could not have been caused by chloroform. The prospect is that the hearing will last many days and that the outcome will decide the fate, once for all, of the man who has fought off death for five years under circumstances that seemed all but hopeless.

Patrick's lawyers will ask for the postponement of the final decision on the motion for a new trial until the arrival here of Corporal Alexander S. Stenberg of the Twelfth United States Infantry, who is now on his way from the Philippines. Stenberg was the predecessor of Jones as secretary and valet for Mr. Rice. He is the personal friend of Jones, and in his affidavit, says Jones told him all his confessions as to the manner of Rice's death were lies and made to save his own life.

Should the result of the present hearing be the refusal of a new trial the defense will apply to the federal court for a writ of error, and application will then be made to have the case considered by the United States supreme court.

The New Cough Syrup—the one that acts as a mild cathartic on the bowels—*Dr. Kennedy's Laxative Honey and Tar*. R. Renfro.

### WHITE SLAVE ON TRIAL

**FRENCH GIRL SHOT AND KILLED HER TRADUCER**

**ACQUITTAL EXPECTED**

**Many Women of Wealth in Attendance at Trial.**

(By Associated Press.)

New York, Feb. 17.—Men and women who have interested themselves in the suppression of the "white slave" traffic will follow with close attention the trial of Bertha Clatch which was called today before Justice Davis in the criminal branch of the supreme court. The girl is charged with murder as the result of her shooting and killing Elsie Gordon last July. She was a "white slave" and Gordon was her master. The evidence introduced at the coroner's inquest showed the awfulness of the traffic which so far has defied all effort to stamp it out.

Gordon, who was a large man, always well dressed and of good appearance, picked up the girl in Paris and persuaded her to come to this country under promise of marriage. Upon arrival in New York he forced the frightened girl upon the streets, while he lived in comfort upon the earnings of her shame. The evidence showed that several other girls were likewise in his toils. He watched the girls closely and hired others to watch them in order that they might not escape. Several times the Clatch girl ran away, was found by Gordon and numerically beaten. Similar beatings were administered whenever the day's earnings did not come up to the expectations or requirements of the monster. Finally, when the beatings became unbearable, the girl had the man arrested. She pointed him out to the officer on the street and he was taken into custody. On the way to the station, the girl following to make the complaint, the man threatened the girl's life and attempted to get at her. The girl took a revolver from her bosom and did not stop until she had emptied its contents into his body.

The trial will be followed closely by several women of wealth and prominence who have taken a strong interest in the French girl ever since her story became known. They confidently expect an acquittal.

**Entrust Your Health to a Specialist Who Understands Your Case Thoroughly.**

Those suffering from any form of Chronic Disease should give much serious consideration to the question of proper treatment. It is not sufficient to know that your doctor is a good physician; but the important question is whether or not he is thoroughly capable of intelligently treating the special disease with which you are afflicted.

Everybody recognizes the fact that this is the age of specialism. The wise man does not undertake to do many things, but to do one particular thing, and do it well—perfectly, if possible. The physician who will endeavor to master the science of medicine in its entirety, may meet with a measure of success if he is especially brilliant and competent. But there is sure to be some disease which some other physician, who has made a study of it, can treat more successfully, and hence more satisfactorily to the patient.

I have been a specialist for more than forty years, restricting my practice to the treatment of Chronic Diseases, to which I have devoted my entire time and talents. For each disease I have perfected a special plan of treatment, which has cured some of the most obstinate cases. After other doctors and remedies have failed, my practice is the most extensive of any other physician in the United States, as I have patients in every State in the Union. Many difficult cases are sent to me by other physicians, who recognize my superior ability in my specialties.

**I do Restore Weak Men.**

Men who are suffering from Loss of Vitality, or a weakening of their many functions, should realize the importance of promptly correcting a condition which will affect their health and future happiness more seriously than any other disease. They need not expect a cure from the widely advertising nostrums, ready-made medicines and deceptive quick cure offers of treatment. Remember, I give you case personal attention, and my treatment is prepared to meet all conditions and requirements. I can cure in the shortest possible time, but I will not mislead you by promising a cure in a few days, which any reputable physician will tell you is impossible. My treatment is a perfect cure, and not an injurious stimulant.
